The above prices are for plans that are suitable for pricing and construction purposes but are not code certified. Plans may be modified and certified by other licensed professionals or in some cases self-certification by individual owners/occupants is permitted. Our firm can provide code certified plans, or "stamped" plans for most eastern states, however costs will be approximately 3-4 times the PDF price noted above. The cost will be provided by quote and depends on (1) the location of the project (2) the plan selected and (3) the modifications that are requested to be made. To request a quote, please provide this information in a summary and fax or email it to our office.
